Magone Lake Closure

John Day, OR - Magone Lake recreation area will be closed to public use from August 9 until August 13. The closure includes the campground, beach area, boat dock, and group sites.

This Recovery funded road maintenance project will begin at Magone Lake on Monday August 9, with additional projects taking place through the remainder of the summer months.

“The Recovery funded road maintenance projects will improve the recreational experience for visitors going to the Magone Lake recreation area,” said Gochmour. “We hope to minimize the impact these projects may have to visitors during the periods of construction, but to ensure the safety of our visitors as well as the contractors, there will be some temporary closures implemented.”

Due to the uncertainty of construction schedules for these projects, if you are planning on visiting the Magone Lake recreation area after July 27, you are encouraged to contact the Prairie City Ranger District Office at 541-820-3800 to find out if construction activities will be occurring during your visit.

Information regarding construction in this area will also be available on the Malheur website at www.fs.fed.us/r6/malheur.

###

The mission of the USDA Forest Service is to sustain the health, diversity, and productivity of the Nation's forests and grasslands to meet the needs of present and future generations. The Agency manages 193 million acres of public land, provides assistance to State and private landowners, and maintains the largest forestry research organization in the world.
